

Kyrle Probus Club member Jim Hamilton presented the second part of his Canadian Adventure with a talk on Thursday 6 September highlighting the spectacular views and stunning lakes and waterfalls in the Rocky Mountain range.

Jim helped to celebrate Canada's 150 Anniversary with a colourful tour and free entry to the country's National Park, during his own wedding anniversary trip. He also commemorated Canada Day on a memorable trip including a cable car ride on the 8,000-foot Mount Jasper together with a series of thundering waterfalls as the end of Spring melted the snow-clad mountains.

Another feature was the blood-red sunrises shining over the canyons and gorges covered in a carpet of rare flowers. A panorama of pine forests; sheer rock faces; eagles' nests and grizzly bears were among the many added bonuses which made the tour so special.

Part One of Jim's Canadian Adventure took in Toronto and Vancouver Island, bear and whale-watching and vineyards.
